

We Have Moved!

We are pleased to announce that we have moved to a bigger and better premise in Peisley Street, Orange.

Call into our new showroom at 12 Peisley Street, on the left before the bridge right next to Midwest Signs and across the road from TracServe Trucks.

Our friendly team will offer the same exceptional service, but from a new exciting location.

Come in and check out our brand new showroom. On display we have our Daikin and Samsung air conditioners, Bonaire gas ducted heating systems, Weber BBQs, AAE solar hot water systems & SunPower and Hyundai solar power systems.

All other contact details remain unchanged.

We are opened Monday to Friday 9am to 5pm

Climate King P/L & Solarco Central West Company vision....
"To supply environmentally conscious people energy efficient products, outstanding service, delivering comfort, peace of mind and reduce their carbon footprint."

ANFD

We invite you to come and visit our site at the Australian National Field Days. The field days will take place from Tuesday 18th to Thursday 20th October and are located 15 Km West of Orange, at Borenore.

At the field days you will find our Sales Representatives at "The Shed" 14 & 15. Our Sales Representatives are all qualified tradesmen with a wealth of industry knowledge. They are happy to assist you with any questions that you may have and help you find the right heating, cooling or solar system for your home or office.

We hope to see you there!

Follow us on Facebook or by visiting our website.

AUSTRALIANS RATE DAIKIN NO. 1

Canstar Blue Survey reveals that Australians rate Daikin No. 1 for:

- ✓ Ease of use and functionality
- ✓ Quiet Operating Levels
- ✓ Energy Efficiency
- ✓ Overall Satisfaction
- ✓ After Sales Service
- ✓ Reliability

Call Climate King P/L 02 6361 8313 and join the list of most satisfied customers by installing a Daikin Air Conditioner.

OUR TEAM

Michelle Trotter has joined our team as an Administration Trainee. Michelle has picked up our operation quickly and is the friendly voice you will hear on the other end of the phone.

We welcome Jeanette back from Maternity Leave.

We would also like to take this opportunity to introduce Clint Stephens to our Sales team. Clint brings a wealth of Sales & Service experience to our team and has already proven a valuable asset to our company.

Congratulations to Geoff for being nominated as "People's Choice Tradie of the Year", John as "People's Choice Customer Service Awards" and both Climate King Pty Ltd and Solarco Central West were nominated as "People's Choice Business 2011" in the CGU Orange Outstanding Business Awards.

Great Product, Great Warranty, Great Price

Introducing Samsung

Climate King Pty Ltd is now selling Samsung Reverse Cycle Air Conditioning units to complement our extensive Daikin Range.

The Samsung Max Air Conditioning Range also has a 5 year warranty on parts and labour. Combine Samsung's warranty with Climate King's P/L 5 year workmanship warranty, now that's peace of mind!

Specialist Dealer

Climate King Pty Ltd is proud to be the Weber Specialist Dealer for Orange. As a Weber Specialist Dealer, we carry the largest range of Weber products including the entire range of Genesis and Summit gas barbecues, the Weber Q Plus range of barbecues and the One Touch Plus range of Charcoal Kettles.

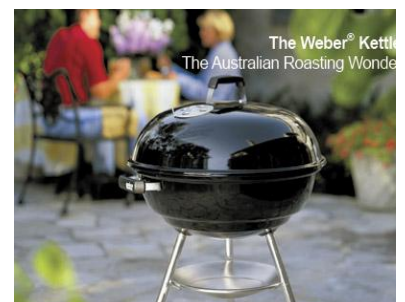

Whether you're crazy about charcoal, crave the convenience of gas, or want to barbecue on the run, we have the Weber for you. Plus, check out our great range of Weber's tools and accessories.

Stuck for Gift Ideas?

Are you stuck finding the perfect gift for Father's Day, a 21st Birthday, Christmas, weddings, anniversary's or just because. We have the solutions for you, with barbecues starting from \$119.95. We have great corporate gift packages, perfect for rewarding your valued staff members.

Gift Vouchers available.

\$1600+
in available rebates
and RECs**

Phasing out of Electric Hot Water Systems

The Australian Government has announced that greenhouse intensive (electric) Hot Water systems will be phased out.

In NSW the relevant dates start from the 1 July 2011. What this means is that from that date, you will not be able to install a new electric hot water system or replace a broken hot water system with another electric hot water system.

Instead, you will need to choose a more environmentally friendly and efficient alternative such as a solar hot water system.

By installing a Solar Hot Water system, you can also save money on your electricity bills!

NEW

Introducing our new **Annual Solar Service** calendar! This service is a health check for your solar power system to ensure that your system is running at optimal efficiency.

Make your booking today.

SOLAR IS STILL A REAL OPTION!

Are you a large power consumer?

Are you an owner/occupier of a commercial premise?

Is your energy use in daylight hours?

Has your electricity bill skyrocketed?

Do you want to cut your energy costs?

If you answered YES to any of these questions we can help!

Reduce your electricity bill by installing a Solar Power System. Despite there being a small feed in tariff, it is still a viable option for individuals and Commercial customers that use majority of their power during the day.

Obligation free site assessment and quotation. We supply and install only the best panels, inverters and we warrant our work for 5 years.

We are fully accredited with the Clean Energy Council of Australia, with a full range of quality products to suit all budgets. We customise installations to suit your individual needs and we handle the full installation of your system and all associated paperwork. Take advantage of the REC multiplier of 3 until June 2012.

Let us review your energy use, look at how you can reduce your use and propose what we can do for you.

Fact, every time the price of power rises, solar becomes more attractive.

SPOT THE DIFFERENCE!

These are photos that our technicians have taken, on the left are photos of installs by our competitors and on the right are systems we have installed. Can you spot the difference?

A: Our panels are straight

A: We don't install different panels on the one job and leave long uneven off cuts

A: Our cable is neatly secured
